

Microsoft Engage '22 Project Timeline (Attendance System with Face Recognition) - Kartikeya Rawat - VIT Vellore (Vellore Campus)

1st Week

Chose the project. Thought about the use case of the project. Finalized the programming languages and frameworks to be used for the project. Also thought about the implementation.

2nd Week

Started the implementation. Created the Frontend part. Created the Face Recognition part. Started dwelling into the Backend part. Created the required Database and tested it.

3rd Week

Completed the Backend Part. Tested the Web-App several times on different cases. Wrote the proper Documentation and also added Comments.
